Dear loved one,

Your story of migration, and that of your loved ones, is one of many. Sharing your stories allows us to make connections through differences and similarities, across time and space. As we shape a society that is diverse, collectively, we want to celebrate and share your experiences of building a life in Germany. Through this, we can find solace in your narrative, be empowered through your successes and the wider society can better understand how unique each migrant's story is. #Mygration wants to provide a space for your existence, history and narratives in your own way...

We would like to invite you to the #Mygration Deutschland Festival on the 20th and 21st of March 2020 to share these stories. There will be music, food, art, readings, workshops and talks from people with different backgrounds.

It's a free event and I hope you will join.
#Mygration - My Narrative.
